### PLANS FOR FIELD DAY

Arrangements for the Field Day of the Thread City Continentals, to be held in Norwich, Saturday, September 9th, are practically completed, and it promises to be the biggest event that Norwich has held in years. It is expected that from twenty-five to thirty drum corps will come to Norwich on that day and compete for prizes. The parade will be held at 1.30 p. m., following which contests for prize loving cups will be held on Chelsea Parade. The prizes will be awarded by the Corps making the best appearance and also for the quality of their music. Individual prizes will also be given for contestants in snare drumming and baton swinging.

Each Corp will average fifteen men, and it is expected that about four hundred players will come to Norwich for the contest, and the affair will provide a novel entertainment for the people of Eastern Connecticut who will visit Norwich on that occasion.

### RULES GOVERNING CONTESTS

Corps must enter all competitive events with same number of men that take part in parade.  
The result of the contests will be announced and prizes awarded at State Armory in the evening.  
No Corps will be allowed to compete that does not participate in parade.  
Corps will be judged in evenness of time, tone and execution.  
Modern Corps will play one selection in 8-8 time and one in 2-4 time, once through—Ancient Corps the same, twice through.  
Individual snare drumming, any of the rudiments the judges may ask.  
Corps can enter in only one class in competing for prizes.  
Individual contests to be held in the afternoon.  
Distance to be governed by railroad mileage.
